

Thermostat-controlled plug with digital thermometer – TZ33

Regulus[®]

Keeps a preset room temperature by switching on/off a heating appliance. For rooms with bathtub, shower or washbasin it may be used in zones 2 and 3 according to CSN.

Operating instructions:

Plug the thermostat into a wall socket (5) and insert the plug of the heating appliance into the thermostat socket.

Select the desired temperature by rotating the knob (4). During rotation, a hand symbol (2) and the desired temperature appear on the display (1).

After the desired temperature is set, the hand icon disappears within 10 sec. and the display (1) returns to showing real temperature.

In case the real room temperature is lower than the preset temperature, the thermometer symbol (2) flashes on the display. At the same time, the thermostat plug is on and LED (3) is lit. As soon as the preset temperature is reached in the room, the thermometer symbol will stop flashing. The plug gets switched off first when the preset temperature is exceeded by about 0.5° C. Then the thermostat plug turns off and the LED (2) goes out. When the room temperature falls below the preset temperature by some 0.5° C, the plug (6) will switch on again.

Technical Data

Temperature Range	5 – 35°C, adjustable
Switching Difference	About 1°C
Voltage	230 V/50 Hz
Electric Protection	IP20
Contacts Rating	230 V~, 16(3) A
Measurement Interval	About 2 min.
Operating Temperature	0-40°C
Storing Temperature	0-50°C
Operating Humidity	5-90% R.H. non-condensing

Warranty Conditions

1. The warranty period is 24 months from the date of purchase.
2. When claiming warranty, this Warranty Card must be submitted together with the original purchase receipt.
3. Failure to respect technical conditions of the manufacturer will render the warranty null and void.
4. The warranty is null and void if the claimed defect is caused by tampering, improper handling, using the product for other purposes than described, using the product under improper conditions or by a natural disaster.
5. Claims shall be resolved by your reseller at the address shown below.
