

PUMP STATIONS FOR HEATING CIRCUITS

CS 2 MIX W 5/4F Pump Station with Mixing

Pump station for bigger boiler rooms with Yonos MAXO circulation pump, mixing valve with actuator and 3-point control, non-return valve and ball valves. It is suitable for connecting to HV 80 Manifolds.

TYPICAL APPLICATION:
For mixed heating circuits.

Components

FLOW:

- 5/4" connection fitting with union nut.
- Mixing valve with electric actuator.
- High efficiency circulation pump.
- DN 20 ball valve.

RETURN:

- 5/4" connection fitting with union nut.
- Non-return valve.
- DN 20 ball valve.

Technical Data

MAX. PRESSURE	10 bar
MAX. TEMPERATURE	110 °C
CONNECTION POINTS	5/4" F
CENTER-TO-CENTER DISTANCE	125 mm
DIMENSIONS	200 x 560 x 235 mm

AVC05 ACTUATOR

SHIFT TIME	120 s
TORQUE	5 Nm
SUPPLY VOLTAGE	230 V 50 Hz
IP PROTECTION by EN 60529	IP 42

Models

Pump station with
Wilo Yonos MAXO 25/0,5-10 pump.
Code: 17267
