Regulus Production, s.r.o.

Research & Development

R&D team uses our long-time experience for developing new products and improving of the existing ones. Our facilities include a dedicated test lab permitting testing our products and validating their parameters before they are introduced to the market. That is why we can guarantee high quality and reliability of all products we offer.

A number of products developed by Regulus is protected by patents and utility/industrial designs in the Czech Republic and many other countries.

Production lines

In our subsidiaries in Czechia and Slovakia we manufacture a wide range of thermal stores, pump stations, valves and other heating system components.

Warehouses & Distribution

In our warehouses there is a total capacity of more than 10.000 pallets. Thanks to our advanced warehouse management we are enabled to guarantee short delivery terms of our products.
