

## PUMP STATIONS FOR HEATING CIRCUITS

### CSE OTS W Single-Line Pump Station, Insulated

Insulated single-line pump station with high-efficiency circulation pump and other basic components necessary for shutting off heating circuits, temperature control and easy servicing.

#### Technical Data

MAX. PRESSURE	10 bar
MAX. TEMPERATURE	90 °C
CONNECTION SIZE	1" F

#### Components

- Wilo high-efficiency circulation pump
- Insulation
- 2 ball valves
- Check valve (only for CSE OTS ZV W)
- Thermometer

#### Models

CSE OTS W Pump Station  
Pump: Yonos Para RS25/6  
Code: 15782

CSE OTS ZV W Pump Station  
Pump: Yonos Para RS25/6  
Code: 15892

CSE OTS ZV W PWM Pump Station  
Pump: Yonos Para RS25/7,5-PWM  
Code: 17284
