17741	EA 614M 250	with in-line heater	188 900 CZK
17743	EA 614M 250 RZV	with in-line heater and IR in fuse box	198 900 CZK
18147	EA 614M 250 EL	for THERM EL 5 or 9 boiler	182 900 CZK
18148	EA 614M 250 EL RZV	for THERM EL 5 or 9 boiler and IR in fuse box	193 900 CZK

Regulus

Energy-saving solutions

HEATING AND VENTILATION CONTROL at your fingertip!

Simply with **IR Client App**

Especially in new buildings, you will appreciate the possibility to connect our Sentinel HRV units to the IR 12 Controller and control your heating and ventilation from your mobile (for iOS and Android operating systems) using our IR Client app.

IR 12 CTC CONTROLLER

- Controls a heating system
- Controls DHW heating
- Controls an auxiliary source
- Can control a solar thermal system
- Heat Recovery Ventilation
- Own diagnostics
- Service access
- Remote access over the Internet
- IR Client mobile App

EA 614M 250 SET with 3-phase inverter heat pump for space and DHW heating

Main pros:

3-phase inverter heat pump

heat pump power input distributed into all three phases

New generation Scroll compressor

high-quality compressor w. long service life

Controlled fan speed

really silent heat pump

Installation without thermal store

space saving

Smart defrosting

on the request from a controller, higher electricity savings

Hot water storage tank of 274l volume

provides ample domestic hot water

1.5 sqm heat exchanger in the storage tank

fast and efficient hot water recovery

Ready for DHW recirculation

terminals to wire a circulation pump
are ready in the switchboard

Well-considered solution for the auxiliary heat source

in-line heater or cooperation
with THERM EL 5/9 el. boilers

Recommended accessories to Sets:

- Electronic Anode Rod
- 12l Expansion Vessel for HW Storage Tank
- Expansion Vessel Support w. valve
- Pump Station for circulation
- Room Units
